REQUEST FOR CONTINUED EXAMINATION

A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on Oct. 31, 2007 has been entered.

REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: The claims have been allowed because the Applicants have limited their independent claim by reciting "consisting essentially of" language which materially excludes the dropwise addition of a concentrated ammonia solution into the reaction solution to effect a partial hydrolysis that is taught in the paragraph bridging pgs. 1142 and 1143 in the article titled "Nanocorundum - Advanced Synthesis and Processing" by A. Krell et al. Alternatively, there is no suggestion or motivation in the references of record to modify the process taught in the paragraph bridging pgs. 1142 and 1143 by deleting this dropwise addition of the concentrated ammonia solution into the reaction solution, in manner that would meet the limitations of the Applicants' claims.

Any comments considered necessary by the Applicants must be submitted no later than the payment of the issue fee and, to avoid processing delays, should
